Low Fidelity to High Fidelity Iteration

This low-fidelity wireframe shows a basic inventory management interface for Tylonol. On the left, there are three icons: a clipboard, a search bar, and a 3D cube. The main header is 'Tylonol'. Below it is a section titled 'inventory' with a search bar and a 'search' button. The central part of the screen displays a table of inventory data:

pharmacy	total	available	
Cridge Family Pharmacy	500 pills	400 pills	<button>adjust inventory</button>
CVS Pharmacy - 11234	500 pills	300 pills	<button>adjust inventory</button>
CVS Pharmacy - 11898	200 pills	180 pills	<button>adjust inventory</button>

At the bottom, it shows '1200 global inventory' and '880 available inventory' with a minus sign between them. To the right is a note: '*global inventory adjustment equally distributes across all pharmacies'. Below this are buttons for selecting a reason: 'please select a reason:' followed by 'expired', 'waste', 'recalled', and 'discrepancy'. A large 'save' button is on the far right.

This high-fidelity design of the Tylonol inventory management interface features a clean, modern look with a light purple header and sidebar. The header includes a user profile icon, a search bar, and a 'Monique Grey' dropdown. The sidebar has icons for a clipboard, a chart, and a gear. The main area is titled 'Tylonol' and contains a 'inventory' section with a search bar and a 'search' icon.

The inventory table is identical to the low-fidelity version:

Pharmacy	Total	Available	
Pharmacy Name	500	400	<button>adjust inventory</button>
Pharmacy Name	500	300	<button>adjust inventory</button>
Pharmacy Name	200	200	<button>adjust inventory</button>

At the bottom, it shows '1200 total inventory' and '880 available inventory' with a minus sign between them. It includes a note: 'adjustment global' and buttons for selecting reasons: 'waste', 'expired', 'recalled', and 'discrepancy'. A large 'save' button is on the far right.

Workflow Construction

The screenshot shows a software application titled "bundles". The main area displays a list of items, likely medical fills, organized into columns: "Last Name", "First Name", "Last Name", "Barcode Status", and "Barcode Details". The "Barcode Status" column contains status indicators like "pending", "received", and "sent to packager". The "Barcode Details" column shows barcode icons. A search bar and a toolbar with various icons are visible at the top. The bottom of the screen shows a message "12 results" and a "release" button.

Last Name	First Name	Last Name	Barcode Status	Barcode Details
Frank Davis	June 10, 2021	89:00 am	pending	[Barcode Icon]
Frank Davis	June 16, 2021	89:00 am	pending	[Barcode Icon]
Galo Schwartz	June 10, 2021	11:00 am	received	[Barcode Icon]
Kenneth Bell	June 09, 2021	87:00 am	received	[Barcode Icon]

The screenshot shows a confirmation dialog box with the title "Do you want to release this bundle from the packager?". It contains a message stating: "By releasing this bundle, all fills that have not received barcodes will appear in your to do list." Below the message is a note: "Remember to cancel at the packager as well." At the bottom, there are two buttons: "no, go back to bundles" and "yes, i would like to release it".

Print and Web Content Design

The advertisement features a smartphone displaying the iOS home screen with various app icons. A notification from 'MyMedTimes' is visible, reading 'Reminder: It's time to take your medication!'. A hand icon is shown pressing and holding the notification for 2 seconds. The background shows a large stylized Android head silhouette.

apple devices

You can keep track of your meds without even opening the app! When your notification appears, press and hold for 2 seconds to see your options, then you can choose to take or skip your meds.

SmoresCheckbox

TextField

ComboBox

Design System Management

The image displays a grid of color swatches and UI components, likely for a mobile application's design system. The colors are organized into several groups:

- light theme colors**: A vertical column of colors including Dark, Yellow, Orange, Red, and Pink.
- dark theme colors**: A vertical column of colors including White, Gray, Light Gray, and Black.
- Labels**: A grid of 12 labels, each consisting of a colored square followed by the text "Elevation-zX". The labels are arranged in three rows of four.
- Text Components**: A grid of 12 text components, each consisting of a colored square followed by the word "text". The grid is arranged in three rows of four.
- SmoresButton**: A grid of 16 buttons arranged in a 4x4 grid. Each button contains a mathematical operator (+, -, ×, ÷) and is surrounded by a dashed border. The colors of the buttons transition through various shades of purple, blue, green, and red.
- SmoresRoundButton**: A grid of 16 buttons arranged in a 4x4 grid, similar to SmoresButton but with rounded corners. It also contains mathematical operators (+, -, ×, ÷) and is surrounded by a dashed border. The colors transition through purple, blue, green, and red.

This screenshot shows the 'Edit Providers in XYZ Network' page. At the top right are two buttons: 'Create Name' (with a blue circle icon) and 'Add Providers' (with a blue circle icon). Below them is a section titled 'Add Providers' with dropdown menus for State (MA), Count, and Zip, and fields for CMS Number and Provider Name, along with a 'SEARCH' button. A 'Filter By Name' input field is also present. The main area is titled 'Providers in XYZ Network' and contains a large, empty list table with columns for Provider Name and CMS Number. At the bottom are 'CANCEL' and 'SAVE' buttons.
